The mission of the *Jennifer Ward Memorial Fund* is to provide Automated External Defibrillators (AEDs) with CPR/AED training to public organizations in need in the South Jersey area. Statistics show that more than 200,000 Americans die of Sudden Cardiac Arrest every year. Up to 50,000 of these deaths could have been prevented if someone had initiated the Cardiac Chain of Survivor and an Automated External Defibrillator (AED) had been available for immediate use at the time of the emergency. We also award annual academic scholarships to deserving students in Cape May County. All proceeds from this event go directly back to helping those in our community.
